Approved.

We will **file with the IRS** for tax exempt status since we got more than \$25,000 grants/income last year.

Work on the addition should start this week with the tubes and posts. The hillside has been cribbed to contain rock. Thursday will be a work day starting at 10 a.m. We will build the addition at the back of the current building instead of the front.

The **website** is www.pmfire.org.

The **chili feed and bake sale** will be October 13.

The **hunting season gun raffle** is going. Mary Ann Cleveland made the books.

Vinci Rinaldi, county commissioner, has asked for input on **impact fees** or requirements from our point of view. We need more information about what we could do since we are volunteer instead of government.

The possibility of **Wal Mart matching** some income from the ATV run is now questionable. We need more information from them.

Respectfully submitted,
Bev Johnk, secretary
