Chris Pfahl, a structural engineer, is working on drawings for the **addition building permit**.

By-laws have been postponed until winter.

The **IRS form** is due by the end of September since we received more than \$25,000 last year. It is a good idea to file each year no matter how much we receive.

The new truck for the **EMS vehicle** is here. The paperwork needs to be done. The complete truck should be done about June 15.

The **rummage sale** will be Memorial Day weekend.

New **check cashing** signing cards and **credit card** access is being done for Stevie and James.

James has applied for **two grants** from Assistance to Firefighters. These are very competitive. One is for an engine for \$75,000; one is for operations and safety equipment for \$70,200. Either one would require a five percent match from us.

Respectfully submitted,
Bev Johnk, secretary
